

IN THE BAG

There is no better way for Pops to carry his spirits to the Father's Day cookout than with this limited-edition Bar Bag. This 21st-century translation of a 19th-century medicine bag was designed by the smokin' indie label Barking Irons. Bombay Sapphire approached designer brothers Michael and Daniel Casarella to create "a true and authentic bag for their top mixologists from around the world." Meeting the challenge, the duo produced the magnificently crafted Bar Bag, embodying style, history, and superior functionality. With this bag, made of soft pebbled leather with a blue sapphire waxed-canvas interior, and fitted with a master's tools, the man of the day becomes the man, period. barkingirons.com | bombaysapphire.com —**DERRICK HEMPHILL**
